STRATEGIC SCHOOL PROFILE 2012-13

Regional School District 12

Patricia E. Cosentino, Superintendent Location: 11a School Street

Washington Depot, Connecticut

Website: www.region-12.org

Telephone: (860) 868-6100

This regional school district serves Bridgewater, Roxbury, Washington

This profile was produced by the Connecticut State Department of Education in accordance with CT General Statutes 10-220(c) using data and narratives provided by the school district, testing services, or the US Census. Profiles and additional education data, including longitudinal data, are available on the internet at www.sde.ct.gov.

COMMUNITY DATA

County: Litchfield Per Capita Income in 2000: \$44,020

Town Population in 2000: 7,556

1990-2000 Population Growth: 2.3%

Number of Public Schools: 5

Percent of Adults without a High School Diploma in 2000*: 7.8%

Percent of Adults Who Were Not Fluent in English in 2000*: 0.3%

District Enrollment as % of Estimated. Student Population: 88.9%

District Reference Group (DRG): C DRG is a classification of districts whose students' families are similar in education, income, occupation, and need, and that have roughly similar enrollment. The Connecticut State Board of Education approved DRG classification for purposes of reporting data other than student performance.

STUDENT ENROLLMENT

SCHOOL DISTRICT DIVERSITY

Student Race/Ethnicity					
Race/Ethnicity	Number	Percent			
American Indian	0	0.0			
Asian American	10	1.2			
Black	9	1.1			
Hispanic	40	4.8			
Pacific Islander	0	0.0			
White	773	91.9			
Two or more races	9	1.1			
Total Minority	68	8.1			

Percent of Minority Professional Staff: 2.7%

Non-English Home Language:

0.7% of this district's students (excluding prekindergarten students) come from homes where English is not the primary language. The number of non-English home languages is 1.

EFFORTS TO REDUCE RACIAL, ETHNIC AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Located in the northwest corner of the state, Region 12 remains relatively isolated from urban life in a rich and varied culture. The fact that there is little diversity among the district's students and staff, requires the Region to offer a range of opportunities for teachers and students to increase their awareness of diversity, to encourage greater sensitivity to differences, and to participate in unique experiences to expand cultural awareness. Our individual school reports provide the most detail, but some highlights include involvement in programs that encourage sharing with students in other parts of the state and across the world ("Flat Stanley"), exposure to cultures through programs like "Customs Around the World," after school programs in the arts (provided by ASAP, a community-based arts program) that broaden cultural sensitivity through the arts, poetry competitions with students in other districts and around the world, and various courses that promote cultural and gender awareness among students. This past year our elementary schools participated in an ASAP interdisciplinary program with a more diverse Connecticut school focused on environmental sciences and the arts. All schools engage in character education programs that help to ensure a community of caring, while promoting mutual respect for all.

Excluding School Construction	95.1	3.3	1.6	0.0

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

Like many other school districts in Connecticut and elsewhere, the Region's staff devotes much time and effort to put forth a budget that meets the needs of students and that is fiscally responsible. This process allows for each principal and program leader to develop and propose a budget request for the following fiscal year, including requests for materials, supplies and equipment. Personnel funding is handled centrally and is largely controlled by a policy that seeks to ensure equitability across the system and that class sizes remain reasonable. Special education costs are dictated by the requirements of the many IEP's that define program needs, ranging from in-class monitoring to costly out-of-district placements. The most recent budget request (FY13-14) brought forward for voter approval was a 1.43% increase over the prior year's budget. The voters endorsed this request at the first referendum. As in the prior year's budget, to achieve this slight increase, positions had to be eliminated across the district among both certified and non-certified staff. In spite of these reductions, learning opportunities remain at present equitable and reasonably comprehensive among all the schools.

Participation in State Assessments of Students with Disabilities Attending District Schools				
CMT	7.7			
	% With Accommodations	92.3		
CAPT	% Without Accommodations	20.0		
	% With Accommodations	80.0		
% Assessed U	Using Skills Checklist	6.0		

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

On a Region-wide basis, goals for improvement include: ensuring curriculum congruence with the CT CCSS and Smarter Balanced Assessments, increasing the use of data to inform instruction and use of common formative assessments; continuing the implementation of the SEED teacher and administrator evaluation process to incorporate the use of student performance data as part of the assessment; and accomplishing the foundational work having to do with long-range planning. At the building level, focuses for improvement are derived from careful analysis of CMT and CAPT scores, as well as through the use of various formative assessments that allow for the adjustment of instruction to insure the success of all learners. Further, work done over the last few years in the areas of differentiated instruction and Understanding by Design now finds its application under the broader umbrella of measured performance. Rigorous instructional programs that promote problem solving and critical thinking skills in students is paramount throughout the region. The Region also continues to work toward the required implementation of Scientific Research-Based Intervention (SRBI). At each level, the administration and staff formulate annual "success plans" that describe targeted areas for improvement and the criteria that will be used to measure degrees of success. This spring the Board of Education passed a motion to build a new PreK-5 School on the Shepaug campus bringing all of the Region's elementary students to one building. The town people will vote on this new school configuration in 2014.
